(b) (X) The Contractor shall not retain the first article provided under this contract, throughout production, to serve as the manufacturing standard of acceptance.

"() The Contractor shall retain the first article provided under this contract, throughout production, to serve as the manufacturing standard of acceptance. However, in the event it is discovered that the first article is deficient in any respect, the contract specifications shall be the manufacturing standard of acceptance. Subject to the approval of the procuring contracting officer, the first article may be shipped as the last unit on the contract, provided the Contractor reconditions the unit to meet all the terms and conditions for acceptance as set forth in this contract.

(c) Unless otherwise specified in this contract, any item destroyed or consumed during the inspection and testing process is not to be considered as part of the contract quantity. The full quantity of acceptable and serviceable items must be delivered.

(d) Unless otherwise agreed upon by the Government and the Contractor, the first article inspection and test shall be conducted at a single location, preferably at the intended site of manufacture. As part of the first article inspection and test, the Government may require the Contractor or its subcontractor to produce or demonstrate any or all of the following:

"(1) Proof that a quality/inspection program/system exists, is in place and functional at the time of the first article inspection and test.

"(2) Proof that any fixtures, tool masters, jigs, or similar devices used, in the inspection and/or testing of the first article, have been subjected to an initial inspection, or other suitable means supporting their accuracy, before being used in the manufacturing/production process.

"(3) A complete detailed description of inspection/test records shall be prepared and available at the time of the first article inspection and test. These records shall include, but are not limited to, records encompassing the manufacturing, processing, inspecting, accepting/rejecting, controlling and testing of parts, components, and/or assemblies. Examples of such records may include, but are not limited to, receiving/incoming/in-process/final inspection, process control, disposition of non-conforming material, inspection and testing done during fabrication and assembly, certification and qualification of special processes and special process personnel, written schedules and records of required periodic inspections, and the calibration and certification of all inspection, measuring, diagnostic and test equipment used.

SPECIAL CONTRACT REQUIREMENTS

11 52.243-4000 ENG CHG PROPOSAL, VALUE ENG CHG PROPOSAL, REQUEST FOR DEVIATION, REQUEST FOR WAIVER, ENG RELEASE RECORDS, NOTICE OF REVISION, & SPECIFICATION CHG NOTICE PREPARATION AND SUBMISSION INSTRUCTIONS JUN/2005

1. Contractor initiated Engineering Change Proposals (ECPs), Value Engineering Change Proposals (VECPs), Request for Deviations (RFDs), and Request for Waivers (RFWs), collectively referred to as "proposals", shall be prepared, submitted and distributed in accordance with paragraphs 2, 3 and 4 below except as specified in paragraph 5 below.

2. Format.

a. Class 1 ECPs require the "Long Form Procedure" for documenting the change and describing the effects of the change on the suitability and supportability of the Configuration Item (CI). Class I ECPs should be limited to those that are necessary or offer significant benefit to the Government. Class I ECPs are those that affect the performance, reliability, maintainability, survivability, weight, balance, moment of inertia, interface characteristics, electromagnetic characteristics, or other technical requirements in the specifications and drawings. Class I ECPs also include those changes that affect Government Furnished Equipment, safety, compatibility, retrofit, operation and maintenance manuals, interchangeability, substitutability, replaceability, source control specifications and drawings, costs, guarantees or warranties, deliveries, or schedules. Class II ECPs are those that do not affect form, fit and function, cost, or schedule of the system CI and do not meet the other criteria described above for Class I ECPs.

b. Long Form Procedure: Class I changes to the CI require that AMSAM-RD Form 523, pages 1 through 7 (as applicable), be prepared. Use of this procedure assures that all effects of the change on the CI are properly addressed and documented to the necessary detail to allow proper evaluation of the proposed change.

c. Short Form Procedure: ECPs and VECs, which meet the requirements of Class II ECPs, shall be prepared using AMSAM-RD Form 523 (page 1 only). Supplemental pages may be used with the form as necessary. The responsible Contract Management Office (CMO) will enter the appropriate data in Block 5 "Class of ECP", Block 6 "Justification Codes", and Block 7 "Priority."

d. The Contractor shall not manufacture items for acceptance by the Government that incorporate a known departure from requirements, unless the Government has approved a RFD. RFDs shall be prepared using AMSAM-RD Form 527 or AMSRD-AMR Form 530 (Type I, see block 5 on the form).

e. The Contractor shall not submit items for acceptance by the Government that include a known departure from the requirements, unless the Government has approved a RFW. RFWs shall be prepared using AMSAM-RD Form 527 or AMSRD-AMR Form 530 (Type II, see block 5 on the form).

f. Each ECP, RFD or RFW shall be accompanied by a written and signed evaluation prepared by the responsible Defense Contract Management Agency (DCMA) technical representative. The DCMA written evaluation shall be considered part of the ECP/RFD/RFW proposal.

g. Classification of RFDs/RFWs.

(1) Major RFDs/RFWs. RFDs/RFWs written against CIs shall be designated as major when the RFD/RFW consists of acceptance of an item having a nonconformance with contract or configuration documentation involving health; performance; interchangeability; reliability; survivability; maintainability; effective use or operation; weight; appearance (when a factor); or when there is a departure from a requirement classified as major in the contractual documentation.

(2) Critical RFDs/RFWs. RFDs/RFWs written against CIs shall be designated as critical when the RFD/RFW consists of acceptance of an item having a nonconformance with contract or configuration documentation involving safety or when there is a departure from a requirement classified as critical in the contractual documentation.

(3) Minor RFDs/RFWs. RFDs/RFWs written against CIs shall be designated as minor when the RFD/RFW consists of acceptance of an item having a nonconformance with contract or configuration documentation which does not involve any of the factors listed above in paragraphs g(1) or g(2), or when there is a departure from a requirement classified as minor in the contractual documentation.

h. Proposals shall include sufficient technical data to describe all changes from existing contract requirements.

i. Proposals shall include sufficient justification for making the change, including a statement of contract impact, if the change is not authorized.

j. Proposals for ECPs shall set forth a "not to exceed" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the equitable increase shall not exceed this amount.

Name of Offeror or Contractor:		

k. Times allowed for technical decisions for ECP and RFD/RFW proposals will be worked out via mutual agreement between the Contractor and the Government.

l. The Contractor shall submit, concurrent with the ECP, a separate AMSAM-RD Form 525, "Specification Change Notice" (SCN), for each specification that would require revision if the ECP were approved.

m. Proposals for VECPs shall set forth a "not less than" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the savings shall not be less than this amount.

n. The Contractor shall utilize AMSAM-RD Form 526, "Engineering Release Record" (ERR) to release new or revised configuration documentation to the Government for approval.

o. The Contractor shall utilize AMSAM-RD Form 524, "Notice of Revision" (NOR) to describe the exact change(s) to configuration documentation specified as a data requirement in the contract. The Contractor shall describe the change using sub-sections entitled "WAS" to describe the current contractual technical requirement and "IS" to describe the proposed new requirement.

3. Submittal. The Contractor shall submit two (2) copies of each proposal to the responsible Administrative Contracting Officer (ACO). One (1) copy of each proposal shall be returned to the Contractor within (5) working days after receipt by the ACO, stating whether or not the proposal is in compliance with this provision. Any unresolved differences between the ACO and the Contractor concerning ECPs, VECPs, RFWs or RFDs will be submitted to the PCO for resolution. Submittals may be made by electronic means by scanning the appropriate completed forms into a computer or preparing the forms electronically.

4. Distribution.

a. Electronic Distribution. The preferred method of distribution is through the Internet E-mail System to the PCO. Microsoft Word is required for use with the transmittal letter (E-mail). Required forms will be attached to the E-mail. All forms may be obtained from the AMCOM Acquisition Center Website (<https://wwwproc.redstone.army.mil/acquisition>) by clicking on "Forms/Checksheets." The forms are in both "Adobe Acrobat" and "Form Flow" formats. In order to access and use the forms, the user must have the "Adobe Acrobat" or "Form Flow" software installed on their computer. Drawings may be scanned into the computer and sent as an attachment. In some cases, because of size, drawings may have to be sent as hard copies or sent under special electronic instructions provided by the PCO. Contractors who do not have access to the AMCOM Acquisition Center Website will need to contact the PCO, the appropriate Project Office Configuration Management Office, or the Technical Data Management Division (AMSRD-AMR-SE-TD) to have the forms sent to their facility.

b. Hard Copy Distribution of Class I or II ECPs and RFD/RFWs. For each Class I or II ECP, or each RFD/RFW that the ACO determines to be in compliance with this provision, the Contractor shall submit the original plus five copies to the PCO and one copy to the ACO. Upon receipt of any type of change proposal that is submitted to the PCO, the ACO shall immediately submit DCMA's written evaluation pertaining to the proposed engineering change action to the PCO. Assistance in preparing any of these proposals may be obtained from the ACO or AMCOM Change Control Point at:

Aviation and Missile Research, Development, and Engineering Center
ATTN: AMSRD-AMR-SE-TD-CM
Redstone Arsenal, AL 35898-5000
Telephone: 256-876-1335

c. Hard Copy Distribution of VECPs. For each VECF that the ACO determines to be in compliance with this provision, the Contractor shall submit the original plus five copies to the PCO and one copy to the ACO. Upon receipt of any VECF that is submitted to the PCO, the ACO shall immediately submit DCMA's written evaluation to the PCO. The Contractor shall also submit one copy of the VECF to the Value Engineering Program Manager (VEPM) whose address is below. Assistance in preparing VECFs may be obtained from the VEPM.

Aviation and Missile Research, Development, and Engineering Center
ATTN: AMSRD-AMR-SE-IO-VE
Redstone Arsenal, AL 35898-5000
Telephone: 256-876-8163

5. Alternate Format, Submittal or Distribution Process. Proposals may be prepared in a different format, submitted using a different submittal process or distributed in a different manner than specified in paragraphs 2, 3 and 4 above, so long as the alternate approach is in accordance with a Government approved configuration management plan governed by this contract or the PCO authorizes the alternate format, submittal, or distribution process.

6. Government Acceptance. Acceptance of a proposal by the Government shall be affected by the issuance of a change order or execution of a supplemental agreement incorporating the proposal into the contract unless the PCO authorizes another method of acceptance. The Government will notify the Contractor in writing if a proposal is determined to be unacceptable.

30 52.219-4702 PILOT MENTOR-PROTEGE PROGRAM NOV/2006

1. The Pilot Mentor-Protege Program (MPP) assists small businesses (Proteges) to successfully compete for prime contract and subcontract awards by partnering with large companies or graduated 8(a) firms (Mentors) under individual, project-based Agreements.

2. a. A Mentor firm must be currently performing under at least one active approved subcontract negotiated with DoD or another Federal agency pursuant to FAR 19.702, and be currently eligible for the award of Federal contracts. New mentor applications must be approved and must be submitted to the Office of Small Business Programs (OSBP) of the Cognizant Military Service or Defense Agency (if concurrently submitting a reimbursable Agreement) or to the DoD OSBP, prior to the submission of an Agreement. Mentors and Proteges are solely responsible for finding their counterpart. Legislatively, DoD OSBPs participation in the teaming of partnering Mentors and Proteges is prohibited. Therefore, firms are strongly encouraged to explore existing business relationships to establish a Mentor-Protege relationship.

- b. Graduated 8(a) firms may be mentors. To be eligible to participate as a mentor, an 8(a) firm must be --
 - 1) A graduated 8(a) firm that provides documentation of its ability to serve as a mentor;
 - 2) Approved to participate as a mentor in accordance with DFARS Appendix I-105; and
 - 3) A graduate of the 8(a) program. A firm's graduation can be validated by either
 - (a) The Small Business Dynamic Search link of the Central Contractor Registration (CCR) (<http://www.ccr.gov/>) if the firm retains its small business size, or
 - (b) Contacting the graduated 8(a) firm's SBA District Office.

3. A Protege firm must be either a small disadvantaged business (SDB), a qualifying organization employing the severely disabled, a women-owned small business (WOSB), a service-disabled veteran-owned small business (SDVOSB), or a historically underutilized business zone (HUBZone). Protege certifications are available from the following sources: for SDB, contact the Small Business Administration (SBA) for certification; for a WOSB, self-certification is sufficient; for an organization employing the severely disabled, they must comply with Section 8046A PL 102-172; for a SDVOSB, they must meet the standards set in Section 8(d)(3) of the Small Business Act (15 U.S.C. 637(d)(3)); and for a HUBZone Small Business, this is a determination to be made by the SBA in accordance with 13 C.F.R. Part 126.

4. Utilization of the Pilot Mentor-Protege Program (hereafter referred to as the "Program") is encouraged. Under the Program, eligible companies approved as mentor firms enter into mentor-protege agreement with eligible protege firms. The goal of the program is to provide appropriate developmental assistance to enhance the capabilities of the protege firm. The Mentor firm may be eligible for cost reimbursement or credit against their applicable subcontracting goals.

5. There are two types of DoD MPP Agreements; direct reimbursement or credit. Direct reimbursed Agreements are those in which the Mentor receives reimbursement costs of developmental assistance provided to the protege. These Agreements are approved by the OSBP of the Cognizant Military Service or Defense Agency as outlined in the Defense Federal Acquisition Supplement (DFARS) Appendix I. Credit Agreements are those in which the Mentor receives a multiple of credit toward their SDB subcontracting goal based on the cost of developmental assistance provided to the Protege. Credit Agreements are currently approved by the Defense Contract Management Agency (DCMA). MPP Agreements must meet the requirements set forth in DFARS Appendix I and the Agreement template. For direct reimbursed Agreement submissions, the Agreement proposal should be submitted to the OSBP of the Cognizant Military Service or Defense Agency. For credit Agreements, the Agreement proposal should be submitted to DCMA. Credit Agreements start on the day they are approved. Direct reimbursement Agreements start on the date that the specific contract vehicle is modified. Mentors cannot incur cost for credit or reimbursement until the Agreement has been approved. Semi-annual reports, annual DCMA performance reviews and Protege 2-year out reports are required for each DoD MPP Agreement.

6. Mentor firms are encouraged to identify and select protege firms from concerns that are defined as: Certified Small Disadvantaged Business, Qualified organization employing the severely disabled, Women-Owned Small Business, Indian-Owned Small Business, Native Hawaiian Organization-Owned Small Business, Qualified HUBZone Small Business, or Service-Disabled Veteran-Owned Small Business.
